SWIGGLE INTERNET SAFETY

It is essential that our children know how to use the internet to complete effective searches but sometimes images or information found through a search engine can be inappropriate. Swiggle is a child friendly search engine aimed at children aged 7-11 and has been designed to enable children to explore the internet in the safest way possible; by filtering results and preventing inappropriate search terms. We will be encouraging our children to use this website for any online searches they complete at school and we hope that you will also find this resource useful when your children are completing online searches at home. If you have any questions about online safety or would like more information about how to keep your children safe online, please speak to Mrs Russell, Mrs Bloomfield or Miss Hodges. Please see the following link for more information.
