

Homework for Willow Week 4- Due 6.10.21

Reflect back...

This week we have been:

- Comparing numbers using $<$, $>$ and $=$.
- Looking at different groups of animals and their characteristics.
- Creating a character description of the elf in our story 'The Elves and the Shoemaker'.

Challenge Forward...

Next week we will be...

- Writing a letter as an elf, thanking the Shoemaker for our lovely new clothes.
- Looking at part-whole models in maths and using this to help us form our own addition number sentences.

Homework to be handed in by next Wednesday at the latest!

Complete the maths worksheet focusing on reasoning. I have also attached a number formation and writing activity to help us write our answers in maths using words and numbers.

Our spellings will be tested on Friday 8th October 2021. We will be recording our scores in our homework diaries.

Please remember- As the weather is getting colder, the children will need a coat (with their name on) and you are more than welcome to leave some named wellies at school.
