

## PARENT FEEDBACK

I can never put into words the transformation in my daughter, from a child who was refusing school to one who is smiling, happy, confident and thriving again!! Thank you. LS

Cedars is an amazing place and we feel lucky our son got a place there otherwise he would still be school refusing school, unable to leave his home. TW

Cedars gave our son the stability, direction and support he needed at a vulnerable time, this definitely helped him to manage his behaviour more successfully. Much gratitude to the staff from our whole family! SH

The support that is given to our child by the staff still is amazing don't know where we would be without them. SM

My son moved to secondary school from Cedars and I have no doubt that his transition would not have been so successful had it not been for his time there and the staff. The support and guidance from his key worker has been exceptional and I truly believe the reason my son has settled so well into his new school. LH

A fabulous team and great support for the children and their parents. TP

Each member of the staff plays such an important role in the children's lives, Thank you for your support and patience. RC

Cedars is the most amazing supportive place, the staff are amazing and help our child to meet his potential. KG

Cedars has been a lifeline for my son and myself. We can't thank the staff enough for their support and help. SB

Thank you for making my daughter become herself again. The change in her in the past 6 months is amazing and all down to you, the amazing staff. SH
